Professional Summary

Backend Developer specializing in building and optimizing scalable server-side applications using **Node.js**, **Express.js**, and **MongoDB**. Skilled in developing RESTful APIs, implementing authentication and authorization with **JWT** and **bcrypt**, and working with cloud platforms like **AWS** and **Render**. Strong foundation in **JavaScript (ES6+)**, **asynchronous programming**, and **database design**. Passionate about backend performance, clean code, and microservice architecture.

Professional Experience

She Can Foundation

Jul 2025 – Oct 2025

Backend Developer Intern

Remote

- Developed and maintained a scalable volunteer portal backend using **Node.js**, **Express.js**, and **MongoDB Atlas**.
- Designed RESTful APIs for donation and volunteer management with secure CRUD operations and validation middleware.
- Implemented **JWT-based authentication**, **bcrypt password hashing**, and structured logging for reliable API communication.
- Optimized database queries, added caching logic, and improved API response time by 20%.

Blinkit

Aug 2024 – May 2025

Inventory Executive

Mumbai

- Managed inventory data, stock reconciliation, and logistics coordination using spreadsheets and analytics tools.
- Created daily inventory reports and automated stock-level checks using formulas and macros for efficiency.

Technical Skills

Languages: JavaScript, SQL

Backend Frameworks: Node.js, Express.js, RESTful APIs, Middleware, Microservices (Basic).

Databases: MongoDB, PostgreSQL.

DevOps & Tools: Git, GitHub, Postman, Docker (Basics), Render, AWS (EC2, S3), CI/CD.

Other: Authentication & Authorization (JWT, bcrypt), Error Handling, API Rate Limiting, Unit Testing (Jest - Basic).

Projects

Finance Tracker | Node.js, Express.js, MongoDB, JWT, Nodemailer

Jul 2025 | [Link]

- Built a secure backend for expense and income tracking using **Node.js** and **Express.js**.
- Implemented JWT authentication, password hashing, and automated reports with **node-cron**.
- Added CSV export, Nodemailer email alerts, and API validation middleware for data integrity.

API Rate Limiter System | Node.js, MongoDB, REST API, Security

Jun 2025 | [Link]

- Developed an API Rate Limiter service using Node.js and MongoDB to track and manage API usage per user.
- Used **SHA-256 hashing** for secure API keys and automated alert emails when usage exceeded 90%.
- Implemented request throttling middleware and tested endpoints with Postman and Jest.

Full Stack Todo App | MERN Stack (MongoDB, Express, React, Node.js)

Jun 2025 | [Link]

- Developed a responsive full-stack Todo application with backend CRUD APIs using Express.js.
- Integrated MongoDB Atlas and deployed via Render with CI/CD and Git-based version control.

Education

Amity University (Online)

Jul 2025 – Expected 2028

Bachelor of Computer Applications (BCA)

Mumbai

M.H. Saboo Siddik Junior College

May 2020 – Mar 2022

Intermediate (PCM with Electrical Maintenance)

Mumbai

Certifications

Backend Development - Udemy

Jan 2025 | [Link]

Hands-on training in Node.js, Express.js, RESTful APIs, Authentication, and Database Integration.

Fundamentals of Backend Engineering - Udemy

May 2025 | [Link]

Learned backend architecture, asynchronous programming, and REST API best practices.
